

Patient Name: \_\_\_\_\_ DOB: \_\_\_\_\_

Dear Patient,

We want you to receive health care that may lower your risk of illness or injury. Medicare pays for some of this care but might not pay for all the wellness care you might need. While Medicare does not pay for a traditional, head-to-toe wellness visit, it does pay for a wellness visit once a year to identify health risks and help you reduce them.

At your wellness visit, our health care team will take a complete health history and provide several other services including:

- Screenings to detect depression, risk for falling, and other problems
- A limited physical exam to check your blood pressure, weight, vision, and anything else necessary your age, gender, and level of activity
- Recommendations for other wellness services and healthy lifestyle changes

Please complete the questions below to help your provider identify your risk factors and get an accurate list of your current specialty healthcare providers.

Please list any specialist you are currently seeing:

**Cardiologist:** \_\_\_\_\_

**Orthopedist:** \_\_\_\_\_

**Hematologist/Oncologist:** \_\_\_\_\_
